SUBJECT Samuel Loring Morison Arrested

MERYL COMER: An analyst for the U.S. Naval Intelligence Support Center has been arrested by the FBI and charged with giving classified information to a British military publication.

Agents say Samuel Loring Morison gave pictures taken by a U.S. satellite to Jane's Defence Weekly, a private publication dealing with military matters.

The pictures are of a Soviet aircraft carrier under construction in the port on the Black Sea.

Morison is the grandson of famed naval historian Samuel Elliot Morison. If convicted, he faces up to 10 years in prison.
